TO: ALL KENYAN DIASPORA

RE: NATIONAL HOSPITAL INSURANCE FUND (NHIF) SERVICES IN DIASPORA

This is to inform that the CEO Lucy Nguru of Kenyan Company WIN Pamoja was presented with a signed contract to be the listed National Hospital Insurance Fund (NHIF) agent for the Diaspora.

This means that the Diaspora can now sponsor families in Kenya to be enrolled into National Hospital Insurance Fund (NHIF).

Benefits of NHIF

- Every Kenyan qualifies for NHIF regardless of their age or their Health status. Diaspora should therefore consider enrolling family members – including those that may already be ill.
- Every illness is covered under NHIF including Cancer, Diabetes, Prostate, Hypertension and more.
- Treatments and tests are provided at no additional cost including Dialysis, Chemotherapy, Surgeries, X-Rays and more.
- NHIF is affordable at a cost of K.shs 6,000 per family, per year (plus Processing Fees).

*Sign-up is easy and can be done through the WIN Pamoja platform. ([www.winpamoja.com](http://www.winpamoja.com)).

How NHIF works:

- Diaspora initiates the request to insure their families into NHIF.
- Enrollment is then coordinated between the families, NHIF and WIN Pamoja.
- Upon successful enrollment, Diaspora families are provided with NHIF coverage which in turn offers treatment at listed NHIF hospitals – for additional cost.
- Refer to [www.nhif.or.ke](http://www.nhif.or.ke) for the list of NHIF hospitals in Kenya.
